EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James McBride on September 2, 2004.

The application has been amended as follows:

The Specification:

In the amendment to the specification entered on 6/28/04 and page 1, line 9, delete "a continuation unde 35 USC⁶ 120 of".

The Claims:

In claim 5, line 2, delete "optionally, a peroxygen source and".

In claim 5, line 23, after "3", insert – and, optionally, a peroxygen source --.

In claim 9, line 2, delete "further".

In claim 10, line 2, delete "further".

In claim 11, line 2, delete "further".

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claim 5 is directed to an allowable product. Pursuant to the procedures set forth in the Official Gazette notice dated March 26, 1996 (1184 O.G. 86), claim 16, directed to the process of making or using the patentable product, previously withdrawn from consideration as a result of a restriction requirement,

Art Unit: 1751

is now subject to being rejoined. Claim 16 is hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Since all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in the Office action mailed on 3/23/04 is hereby withdrawn.

Note that, Applicant's amendments, Applicant's arguments, the Examiner's Amendment, and the terminal disclaimer are sufficient to place the instant claims in condition for allowance.

Of the references of record, the most pertinent is Madison et al (US 5,482,515). Madison et al teach a method for bleaching substrates using bleach catalysts and detergent compositions containing such catalysts. See Abstract. However, Madison et al do not teach the presence of metal-bleach catalysts as recited by the instant claims.

None of the references of record, alone or in combination, teach or suggest a bleaching composition and method of using such a composition to bleach fabrics containing a metal-containing bleach catalyst, an anionic surfactant, a specific organic catalyst, and the other requisite components of the composition in the specific proportions as recited by the instant claims. Accordingly, since the prior art fails to teach or suggest such a composition and method of using such a composition as recited by the instant claims, the instant claims are deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should

preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
